

Present: Lyn, Rochelle, Jackie, Heidi, Pam, Lorraine, Callum, Jules.

### Chrome books.

Where are we at with them. What are they being used for?

Are they more suitable for seniors? Possibly yes.

They are being used for browsing in junior classes along with some of the apps available. Overall they are being used well. Callum has called upon others to create pods for his class, this was successful.

### The ipads

Lyn can now look at and find all pads and how to manage them and track updates etc.

Would we book it if they were in pods? Possibly not.

Devices should be part of your normal class practice. You shouldn't have to wait to book a pod.

Teams could pool for pods if they want to use them that way.

All plg team members want to keep a chrome book and ipad. There are some staff who are not using Chrome books/ devices. We think every one should keep devices so we are providing maximum opportunities for all teachers to become proficient in their use.

### We need a plg plan for future learning.

Ideas for professional learning;

- ◆ techie breakies
- ◆ slots in team mtg. (for this to be successful we would need a Year 3 team member to join the ict plg)
- ◆ slots in staff mtg. App and a tip at staff mtg?
- ◆ short and sharp sessions for pl.

### BYOD

What do we want to do?

We need to have policy around this also procedures around safety for devices. Lyn to put out feelers to see what other schools have in place. Heidi to look to see if she still has Caitlyn's policy from intermediate

### Classroom computers in the senior school

As of April 2014 all XP machines will need to be taken out of classes this is because xp is no longer being supported. We can load these up with buntu -Linux this would be a portal to the internet. We all agree that this is a good option for our old pc's Lyn will look to do this with all old computers in 2014.
